CAREER OBJECTIVE:

Artificial Intelligence and Machine Learning undergraduate with hands-on experience in Data Science, Machine Learning, Python, SQL, FastAPI, and Full-Stack Development. Skilled in building secure payment systems, offline digital payment platforms, and scalable backend applications. Seeking opportunities to apply analytical, machine learning, and software engineering skills to develop innovative AI-driven solutions.

EDUCATION:

Abdul Kalam Institute of Technological and Sciences

Bhadradi kothagudem

Bachelor of Technology (B.Tech) - Artificial Intelligence & Machine Learning: GPA:7.38

SEP2023 – MAY 2027

TECHICAL SKILLS:

Programming: Python, Java, C, JavaScript

Machine Learning: Machine Learning, Scikit-learn, Pandas, NumPy, Data Preprocessing, Feature Engineering, Model Training, Model Evaluation, Cross Validation

Full Stack: HTML5, CSS3, JavaScript, Node.js, Express.js, MERN Stack, REST APIs, JWT Authentication

Database: MongoDB, SQL

Tools: Git, GitHub, VS Code, Postman

Core: Object Oriented Programming, DBMS, Operating Systems, Computer Networks.

TECHINICAL EXPERIENCE:

Utilized Artificial Intelligence, Machine Learning, Data Science, and Full-Stack Development technologies to design, develop, and enhance real-world applications. Passionate about solving complex problems, modernizing existing systems, and delivering innovative solutions that improve security, efficiency, and user experience.

PROJECTS:

- **Secure Payment Verification System** | HTML, CSS, JavaScript, Node.js, MongoDB – Developed a secure transaction verification platform with identity authentication and fraud prevention mechanisms.
- **QPAY** | Kotlin, FastAPI, MySQL, JWT – Built an offline digital payment solution supporting secure Internet and SMS-based transactions.
- **RideConnect** | Kotlin, Jetpack Compose, FastAPI, MySQL, Redis, WebSockets – Developing an offline-capable ride-hailing platform with real-time tracking and intelligent ride matching.

SOFT SKILLS:

Problem Solving, Analytical Thinking, Critical Thinking, Effective Communication, Team Collaboration, Adaptability, Continuous Learning, Attention to Detail, Curiosity-Driven Exploration of Emerging Technologies, and a strong interest in understanding real-world problems and the technologies designed to solve them.
